

JAYOTI VIDYAPEETH WOMEN'S UNIVERSITY, JAIPUR

Incubation Centre

University is a step forward to tap the potential of its talented student base and alumni to foster the spirit of entrepreneurship and to give space to create new products. The institution has always followed a multi-faceted approach towards development of scientific temper, research culture and aptitude among its students.

University has established an Incubation centre to inculcate a culture of innovation driven entrepreneurship, to promote startups and provide various facilities like infrastructure, finance, screening of idea, development of business plan, mentoring, etc with an objective to bring innovations. University has incubator and innovation facility that provides its students with the required resources, as well as offers an opportunity to the faculty to provide their valuable insights towards grass root level implementation of commercial activities to stimulate the growth of the country.

University is keen in providing incubation support to budding entrepreneurs. The vision of Incubation Centre is to bring University innovations and other entrepreneurs together in an inspired, results-driven atmosphere to escalate the economic growth and strength.

University's Incubation centre is providing its students with the required financial, technical and marketing resources, as well as offers an opportunity to provide their valuable insights towards grassroots level implementation of commercial activities to stimulate the growth of the country. University's Incubation centre is providing following facilities:

- Office space
- IT Infrastructure and support
- Meeting Rooms
- Hostel
- Training facility
- Business plan
- Mentoring and coaching
- Financial support from University and outside agencies
- Laboratories
- Workshop facilities
- Expert guidance
- Product show case
- Technology demonstration
