

JAYOTI VIDYAPEETH WOMEN'S UNIVERSITY, JAIPUR
ESTABLISHED BY GOVERNMENT OF RAJASTHAN
UGC APPROVED | NAAC ACCREDITED

DEPARTMENT OF PHYSIOTHERAPY
FACULTY OF PHYSIOTHERAPY & DIAGNOSTICS

Course Outcomes of BPT

Course Code	Course Name	Course Outcomes
VAD-008	English Communication	<ol style="list-style-type: none"> 1. Learn the essentials of English Grammar. 2. Apply the rules of grammar to use flawless English in speech and writing. 3. Analyze, identify and rectify the common errors in speech and writing. 4. Student can read with ease and fluently, enrich vocabulary and enjoy reading and writing. 5. Evaluate a piece of writing keeping in mind all the rules of grammar studied. 6. Read and comprehend English.
UF-PT-003	General Biochemistry	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the various aspects of Biochemistry. 3. Understanding the concepts of Biochemistry.
UF-PT-013	Basics of Psychology	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the various aspects of Psychology 3. Understanding the concepts basics to Psychology
UF-PT-007	Human Anatomy-I	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the concepts of Human Physiology. 3. Understanding the practical aspects of Human Physiology.
UF-PT-008	Human Anatomy-I (Laboratory)	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the basic concepts of human body. 3. Demonstration of the practical aspects of human body.
UF-PT-009	Human Physiology-I	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the concepts of Human Physiology. 3. Understanding the practical aspects of Human Physiology.
UF-PT-010	Human Physiology-I (Laboratory)	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the basic concepts of physiology. 3. Demonstration of the practical aspects of human physiology.
UF-PT-005	Fundamentals of Yoga-I	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the concepts of Yoga

		3. Understanding the practical aspects of Yogic sciences.
UF-PT-006	Fundamentals of Yoga-I (Laboratory)	1. Develop an understanding of the subject. 2. Understanding the basic concepts of yoga. 3. Demonstration of the practical aspects of yoga on human body.
UF-PT-011	Basic of computer and information technology	1. Develop an understanding of the subject. 2. Understanding the concepts of computers, their software, how to operate and use computer in the field of medical lab technology 3. Understanding the practical aspects of computer and information sciences
UF-PT-150	Sociology	1. Develop an understanding of the subject. 2. Making a sense of the relation of Sociology with health sciences. 3. Understanding the concepts basics to Sociology 4. To make out the interdependence between man and society
UF-PT-020	Human Anatomy-II	1. Develop an understanding of the subject. 2. Understanding the basic concepts of Human Anatomy. 3. Understanding the Human body in detail.
UF-PT-021	Human Anatomy-II (Laboratory)	1. Develop an understanding of the subject. 2. Understanding the basic concepts of human body. 3. Demonstration of the practical aspects of human body.
UF-PT-022	Human Physiology-II	1. Develop an understanding of the subject. 2. Understanding the concepts of Human Physiology. 3. Understanding the practical aspects of Human Physiology.
UF-PT-023	Human Physiology-II Laboratory)	1. Develop an understanding of the subject. 2. Understanding the basic concepts of physiology. 3. Demonstration of the practical aspects of human physiology.
UF-PT-018	Fundamentals of Yoga-II	1. Develop an understanding of the subject. 2. Understanding the concepts of Yoga 3. Understanding the practical aspects of Yogic sciences.
UF-PT-019	Fundamentals of Yoga-II (Laboratory)	1. Develop an understanding of the subject. 2. Understanding the basic concepts of yoga. 3. Demonstration of the practical aspects of yoga on human body.
UF-PT-149	Basic Nursing, Emergency & CPR (Laboratory)	1. Develop an understanding of the subject. 2. Demonstrate the skills of basic nursing, CPR in Emergency. 3. Understanding and demonstration of the Emergency procedure.
UF-PT-151	General Medicine & Surgery	1. Develop an understanding of the subject. 2. Understanding the concepts of Medicine & Surgery. 3. To understand the diseases and its management.
UF-PT-053	Pharmacology	1. Develop an understanding of the subject. 2. Understanding the basic concepts of Drugs. 3. To understand the effects of drugs on human body.
UF-PT-028	Electrotherapy - I	1. Develop an understanding of the subject. 2. Understanding the basic concepts of Electrotherapy.

		3. To understand the effects of electrotherapy on human body.
UF-PT-029	Electrotherapy – I (Laboratory)	1. Develop an understanding of the subject. 2. Understanding the basic concepts of Electrotherapy. 3. Demonstration of the practical aspects of various equipments.
UF-PT-034	Pathology & Microbiology	1. Develop an understanding of the subject. 2. Understanding the basic concepts of Pathology and Microbiology. 3. Understanding the clinical aspects of Pathology and Microbiology.
UF-PT-152	ENT, Ophthalmology & Dermatology	1. Develop an understanding of the subject. 2. Understanding the basic concepts of ENT, Ophthalmology and Dermatology. 3. Understanding the clinical aspects of ENT, Ophthalmology and Dermatology.
UF-PT-045	Exercise therapy- II	1. Develop an understanding of the subject. 2. Understanding the basic concepts of Exercise Therapy. 3. Understanding the basic clinical aspects of Exercise Therapy to human body.
UF-PT-046	Exercise therapy -II (Laboratory)	1. Develop an understanding of the subject. 2. Understanding the basic concepts of Exercises. 3. Demonstration of the practical aspects of Exercise Therapy.
UF-PT-153	Radio-diagnosis	1. Develop an understanding of the subject. 2. Understanding the concepts of Radiological findings. 3. To understand the clinically about the investigation procedures.
UF-PT-064	Orthopedics	1. Develop an understanding of the subject. 2. Understanding the concepts of Orthopedics. 3. To understand the clinical conditions and its management.
UF-PT-075	Pediatrics	1. Develop an understanding of the subject. 2. Understanding the concepts of Paediatrics. 3. To understand the clinical conditions and its management.
UF-PT-041	Electrotherapy - II	1. Develop an understanding of the subject. 2. Understanding the basic concepts of Electrotherapy. 3. To understand the effects of electrotherapy on human body.
UF-PT-024	Biomechanics & Kinesiology-I	1. Develop an understanding of the subject. 2. Understanding the concepts of Biomechanics and Kinesiology. 3. To understand the clinical aspects of Kinesiology.
UF-PT-155	Research Methodology- I	1. Develop an understanding of the subject. 2. Understanding the concepts of Research and its methods. 3. To understand the practical implementations of Research.
UF-PT-154	Sports Nutrition	1. Develop an understanding of the subject. 2. Understanding the nutrition in sports 3. To understand the clinical problems in sports and its management with nutrition.

UF-PT-042	Electrotherapy – II (Laboratory)	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the basic concepts of Electrotherapy. 3. Demonstration of the practical aspects of various equipments.
UF-PT-062	Neurology & Neurosurgery	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the diseases related to brain and nervous system. 3. To understand the clinical conditions and its management.
UF-PT-156	Cardio-diseases & Thoracic Surgery	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the diseases related to Heart and Thorax. 3. To understand the clinical conditions and its management.
UF-PT-157	Manual Therapy	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the concepts of Manual Therapy. 3. To understand the clinically about the manual techniques.
UF-PT-158	Health, Fitness & Exercise Prescription	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the various techniques of health and fitness. 3. To understand the clinical applications and its management.
UF-PT-039	Biomechanics & Kinesiology -II	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the concepts of Biomechanics and Kinesiology. 3. To understand the clinical aspects of Kinesiology.
UF-PT-159	Research Methodology- II	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the concepts of Research and its methods. 3. To understand the practical implementations of Research.
UF-PT-160	Manual Therapy (Laboratory)	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the concepts of Manual Therapy.
UF-PT-105	Gynecology & Obstetrics	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the diseases related to Women's health. 3. To understand the clinical conditions and its management.
UF-PT-081	Bio-Engineering	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the Principles of Rehabilitation.
UF-PT-161	Psychiatry	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the diseases related to brain and psychology. 3. To understand the clinical conditions and its management.
UF-PT-162	Ethics & Law (Medical/PT)	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the Medical Law and Ethics. 3. To understand the ethical aspects of the clinical practice.
UF-PT-163	Organization & Administration	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the Organization structure. 3. To learn the Administrative and teaching skills.
UF-PT-164	Human Ergonomics	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the diseases related to occupational Health. 3. To understand the clinical conditions and its management.
UF-PT-165	Therapeutic Massage	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the concepts of Therapeutic massage. 3. To understand the clinically about the massage techniques.

UF-PT-166	Therapeutic Massage (Laboratory)	<ol style="list-style-type: none"> 1. Develop an understanding of the subject 2. Understanding the concepts of Therapeutic massage. 3. To understand the clinically about the massage techniques.
UF-PT-167	Ortho Physiotherapy- I	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the diseases related to musculoskeletal system. 3. To understand the clinical conditions and its physiotherapy management.
UF-PT-167	Neuro Physiotherapy- I	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the diseases related to CNS. 3. To understand the clinical conditions and its physiotherapy management.
UF-PT-169	Chest Physiotherapy- I	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the diseases related to Chest 3. To understand the clinical conditions and its Physiotherapy management.
UF-PT-170	Sports Physiotherapy- I	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the injuries related to various sports. 3. To understand the clinical problems and its physiotherapy management.
UF-PT-171	General & Community Physiotherapy- I	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the diseases related to general health. 3. To understand the clinical conditions and its management.
UF-PT-172	Allied Therapy	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the concepts of various allied therapy techniques. 3. To understand the clinical concepts.
UF-PT-174	Allied Therapy (Laboratory)	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the concepts of various allied therapy techniques. 3. To demonstrate the clinical concepts.
UF-PT-175	Ortho Physiotherapy - II	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the diseases related to musculoskeletal system. 3. To understand the clinical conditions and its physiotherapy management.
UF-PT-176	Neuro Physiotherapy – II	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the diseases related to CNS. 3. To understand the clinical conditions and its physiotherapy management.
UF-PT-177	Chest Physiotherapy - II	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the diseases related to Chest 3. To understand the clinical conditions and its Physiotherapy management.
UF-PT-178	Sports Physiotherapy - II	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the injuries related to various sports. 3. To understand the clinical problems and its physiotherapy management.
UF-PT-179	General &	<ol style="list-style-type: none"> 1. Develop an understanding of the subject.

	Community Physiotherapy - II	<ol style="list-style-type: none"> 2. Understanding the diseases related to general health. 3. To understand the clinical conditions and its management.
UF-PT-180	Fundamentals of Therapeutic & Kinesio Taping	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the concepts of various taping techniques. 3. To understand the clinical concepts.
UF-PT-182	Fundamentals of Therapeutic & Kinesio Taping (Laboratory)	<ol style="list-style-type: none"> 1. Develop an understanding of the subject. 2. Understanding the concepts of various taping techniques. 3. To demonstrate the clinical concepts.
