A FLOWER TREE ON YOUR ROOF CAN SAVE YOU DURING EARTHQUAKE PLANTATION AT LARGE

Dr. Pankaj Garg (Founder & Advisor, Lead Inventor)
Dr. Shobha Lal

ABSTRACT

Our study shows that the third type of wave (We may term it as E type Wave), not P and S type, pass through the upward portion of the Earth and destabilize the equilibrium configuration of environment layers which surround our body and change in configuration of our surrounding change the level of Oxyzen, Nitrozen and other dust particles responsible for space formation including other ingredients of the space time matter for a certain moment . All the molecules of the pressure particles lead to quick change in the atmospheric pressure which works normally counted as 760 mmHg on the anatomy and Physiology of the bodies of all humane beings. A little bit PauliTMs Exclusion principle comes into the existence at that very Moment due to E wave impact. People who were residing to the backward part of the dense forests and Ponds of Himalaya and VTR (Valmiki Tiger Reserve Region) were found as less mental illusion. There is possibility of another third wave E (New Nomenclature) which Pass parallel to the surface of the earth is responsible for post earth quake health problems of humane being under Anatomy spectrum.
