Faculty of Ayurvedic Science

Faculty Name : **Jv`n Dr. Jitendra Kumawat**, Assistant Professor
Course Code : **[to be filled by University Management]**
Course Title : **Rachana Shaarir**
Theory : **Theory**
Program : **BAMS 1st Year**

Sr. No.	Course Outcomes`
1.	Sharir means 'human body' and Rachana means 'Structure'. So Sharir Rachana is the branch of Ayurveda which deals with the knowledge of structure of human body.
2.	This branch consists knowledge about bones, muscles, blood vessels, strotas, joints, vital organs etc.
3.	The most important topics of research in Rachana Sharir are the concept of ancient neuroanatomy as Nadi Tantra, marma, sukshma, and sthula sharir, applied aspects of shad chakras, srotas, Avedhya sira, Kala sharir, etc. Many other areas in Samhitas can be searched and explored for latent content.
4.	Department of Rachana Sharir stands as one of the important pillar of basic principles of Ayurved.
5.	It deals with the study of Structure of the Human Body and topics like embryology, histology, Anthropometry, Genetics, marma sharir etc as per Ayurved and Modern science.
