

Jayoti Vidyapeeth Women's University, Jaipur

Policy for Promotion of Research

University is committed to excellence and diversity in research and promoting the development of rigorous, critical and socially engaged research. We have a special interest in bringing critical theory, social and scientific research and educational practice to bear on one another in the enrichment of knowledge for faculty, students, staff, educational policymakers and all those passionate about knowledge, learning, educational and social justice. University's Directorate of Research & Development has been entrusted with the responsibility of institutionalizing research innovation which shall lead to the creation of patents and Intellectual Property Rights and consultancy in the University. All the researches in the University are directed towards publication of research papers, case studies and other scholarly articles. Every year University provides guidelines in terms of broader research areas on which departmental researches and Ph.D research work is carried out.

Research Policy of Jayoti Vidyapeeth Women's University

University's research policies are laid down to increase the knowledge of faculties and students and direct the educational programs towards research.

Infrastructural Facilities

Keeping in mind the University's educational objectives and research requirements University is providing following facilities to foster the research environment:

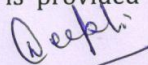

- Innovation Centre
- Incubation Centre
- Digital Libraries with latest journals, books and newspapers
- Laboratories
- Computer labs

Financial support

In pursuit of the goals and to establish and maintain a vibrant research climate in the University, faculties and students are provided with the seed money. The seed money is provided to:

- Support and deliver research excellence;
- Continue research in critical grass roots and global issues which require cross disciplinary co-operation
- Establish a thriving and innovative research culture which connect academics to industry, business, government and other sectors nationally and internationally
- Equip students with the required entrepreneurial capacity so that they can contribute to the growth of the knowledge economy.

Appealing research projects are declared as "University Research" which is provided 100% funds from the University.
