At Present more than 80% of the University area is covered with greenery including grass, trees, poly house and herbal garden with Ornamental Plants (champa, ashok, gulmohar), Shade Trees (Banyan, peepal, neem), Medicinal Plants (Neem, Amla, Giloy, Aloe vera, Sehjan & Naagphani), Creepers (Rangoon, morning glory, giloy), Fruits Plants (cheeku, ber, jamunetc.) etc.

## Other Major Green Initiatives :

**Pollution Free Campus:** An initiative of not to bring any vehicle in the campus by students & staff (except Ambulance) and have walk or bicycle ride which prevent carbon dioxide emission in the campus. University lush green campus having variety of plants keeping us happy & healthy and make environment free from air pollution.

- \* As University amidst rural setting, far away from city crowd and limited use of vehicles also minimize the noise pollution.
- \* University practice, growing of plants by using Local Soil, Local Water and Local climate.
- \* Developing Local plants in University tissue culture for sustainable plants growth.

**Plastic free campus:** Plastic is completely banned in the entire University campus. Recycled Cloth bags are used by all students & staff members instead of Plastic bags.

**Paperless office:** University works digitally on ERP system to encourage the paperless environment/

**Radiation Free Campus:** No use of Mobiles, use of Laptops & Computers for access to the only authentic websites as per need of the students prevents them from the electromagnetic fields produced by mobile phones & other electronic gadgets thus their health and biological diversity being protected against the harmful effects of radiation.

**Eco Friendly Environment:** Nearby resident students and staff are encouraged to use eco-friendly transport. Those who belong from far areas are provided University transport for safety, security, and fuel conservation. University provides the transport facilities in which eco-friendly fuel and CNG gas is used. Pedestrians Friendly Roads The campus has wide, well maintained pathways covered with greenery.

**Use of Solar Energy:** An innovative practice to effectively make use of the solar energy for Street Lights & water heaters to generate hot water, saving costly electricity & use of gas.

### **Beyond the campus environmental promotional activities**

1. Tree planting initiatives of the University are the hallmark for environmental promotion in rural areas. In the last 5 years, University has planted 5500+ medicinal plants in Campus and in Nearby villages & schools to promote healthy living.

Such plantation also focusses on restoring deforested or degraded landscapes in nearby rural areas and promote greenery. By engaging university's students, faculty, and local communities, university gives its best efforts to create a sense of shared responsibility for environmental conservation among local community.

2. By adopting nearby rural villages, University identifies their specific needs and challenges, University agriculture students & staff members worked collaboratively to implement solutions that foster environmental sustainability, such as providing clean drinking water, sanitation facilities, and promoting organic farming practices. These programs empower local communities and create long-lasting positive impacts on both their well-being and the environment.

3. Under Community Development Activities, every year university organizes various workshops, seminars, and awareness campaigns to educate villagers about the importance of conservation and sustainable living. These programs cover a wide range of topics, including waste management, water conservation, and wildlife protection. By engaging local schools, Village Sarpanch, and local farmers, the University disseminate knowledge about environmental issues at grassroots level.

4. University conduct agriculture mentorship programmes to encourage and support sustainable agricultural practices in rural communities for which University provide training and resources to local farmers on organic farming techniques, crop rotation, and the use of environmentally friendly pesticides and fertilizers. These

19 May, 2023 : Under the community development activities being run under Unnat Bharat Abhiyan, students of Jayoti Vidyapeeth Women's University participated in waste management activities to celebrate JV Mantra Day Green-Clean-Happiness [Unnat Bharat Abhiyan #UBA](#)

University's Waste Management Activity Theme for the Month of May 2023 is "Preparation of Handmade Paper Sheets & Paper Bags and creating Beautiful Bird Houses from Waste Material/Items." These two-day activities started from 18th May where students participated in making handmade paper sheets and paper bags from waste material/items and making bird house from waste material. These bird houses would later be hung on the trees of the university, so that birds could take shelter in these houses.

In a significant stride towards promoting sustainability and combating paper waste, University has developed a ground-breaking recycling process Under University Startup Centre- Punar Janam that converts paper waste into high-quality paper. This innovative technique marks a remarkable achievement in the field of recycling. With the growing awareness of environmental issues and the increasing demand for sustainable alternatives, this breakthrough in paper recycling ushers in a new era of responsible production and consumption. By harnessing the potential of paper waste, we can significantly reduce our ecological footprint while simultaneously meeting our paper needs.

JV Mantra Day [Green- Clean-Happiness] 20 May,2023

on the Second Day of Waste Management Activities of the month, students of Jayoti Vidyapeeth Women's University, Jaipur prepared beautiful creative Bird Houses under their CDA activities . Also prepared Paper Bags through Recycling Process. Students transformed their creative ideas on converting unused or waste material into bird houses for providing a safe place for birds to build their nests, protected from the elements and predators. In the summer month, these bird houses protect them from heat weaves.
