JAYOTI VIDYAPEETH WOMEN'S UNIVERSITY, JAIPUR

National Assessment and Accreditation Council

Internal Quality Assurance Cell (IQAC)

SSR 7.3. Portray the Performance of the Institution in one Area to its Priority and Thrust

Title: Transformative Education : Jvwu Odyssey of Empowering Women and Building Communities

Jayoti Vidyapeeth Women's University (Jvwu), Jaipur is established amidst rural surroundings, With a commitment to provide “**Education for Community Development leading to Women Empowerment**”, as declared on its establishment by the Visionary Founder & Advisor Dr. Panckaj Garg. The University is working in the direction of Community Development since its inception 2008 through various programs under "Community Development Activities (CDA)

In rural areas, social and economic barriers often prevent girls from pursuing higher education, leading to high dropout rates. Jayoti Vidyapeeth Women's University (Jvwu), Jaipur, took proactive measures to address these challenges by launching several initiatives in rural areas to concretize this commitment. The university has instituted a comprehensive approach, incorporating reservation policies and scholarships specifically tailored for local girl aspirants from rural backgrounds.

These strategic initiatives are designed to address a spectrum of social and educational objectives, offering crucial opportunities and support to underprivileged and underrepresented girls in the pursuit of higher education

As per the Census India 2011, *The female literacy rate in Jaipur, Rajasthan was 64.02% . The overall literacy rate for the district was 75.51%, with the male literacy rate at 86.05%.*

Some reasons for the low literacy rate among women in Rajasthan include Declining funds for basic literacy programs and Conservative mindset. In Rajasthan, the literacy rate was lower in rural areas and among females. The literacy rate was also very low in scheduled tribe dominant areas.

In recent years, literacy trends have improved significantly in overall Rajasthan State Including In Tehsil Mauzamabad, Jaipur Rajasthan as Jayoti Vidyapeeth Women's University continuously putting efforts to increase female literacy rate of surrounding villages.

These efforts aimed to **promote higher education, prevent dropouts, and empower rural girls** through subsidized education, career counselling, and financial support etc. The university actively promotes education and skill development to empower women, enabling them to overcome societal challenges such as gender bias and limited educational access.

JVWU has contributed to female literacy and empowerment in rural areas through following initiatives:

1. **Educational Programs for Women in Unconventional Fields:** JVWU offers UG,PG and Research programmes in various fields such as Ayurvedic Medicine, Homeopathy, Yoga, and Computer Sciences etc, which were traditionally less accessible to women. The aim is to inspire women to pursue careers that challenge gender norms, thus expanding their professional opportunities.

Since Inception in year 2008, The university has introduced various professional, technical and medical courses targeted at rural women, allowing them to pursue learning without needing to relocate. This initiative reduces barriers to education such as family obligations and economic constraints.

2. **Community Development and Scholarships:** JVWU's curriculum integrates community service and offers scholarships to the students from rural backgrounds. These efforts promote education at the grassroots level and inspire young women to be active contributors to their communities.
3. **Health and Social Awareness Programs:** The university organizes awareness drives, focusing on healthcare and gender equality, which indirectly bolster literacy by encouraging women to pursue education as a means of empowerment.

The university's commitment to holistic education and community development has made it a vital University in raising the literacy and skill levels of rural women, driving positive social change in Rural Jaipur, Rajasthan over the past 16 years.

Objective of the Initiative :

- **Preventing Dropouts:** Many rural girls face socio-economic challenges, leading to interruptions in their education.
- **Promoting Gender Equality:** The policy aligns with India's focus on gender equality in education and economic empowerment for women.
- **Reducing Migration:** By offering local educational opportunities and employment, the university aims to discourage migration to urban centers.
- **Enhancing Community Development:** The policy strengthens the local community by developing educated and employable youth within the region.
- Support academic and overall development of school children through Education mentorship Programme by university students.
- Empower Women through Education to fulfil our University Mission "Education for Community Development Leading to Women Empowerment"

Execution of Initiatives :

1. Seat Reservation Policy:

In alignment with its commitment to inclusive education, JVWU has introduced a seat reservation policy to support rural girls in their pursuit of higher education. By reducing barriers such as financial constraints and limited access to resources, this policy aims to provide rural girls with the opportunity to acquire quality education and enhance their professional prospects.

Local Seats are reserved for the students who are resident within 40 Kms Radius of the University Campus, having domicile of Jaipur, Ajmer and Sikar District.

This policy aims to:

1. Provide rural girls greater access to quality education.
2. Address systemic challenges like financial constraints, societal barriers, and limited employment prospects.

The reserved seats cover all undergraduate and postgraduate programs.

1. Admission eligibility focuses on both **merit and socio-economic background** to ensure deserving candidates benefit.
2. **25 -30 % seats reserved** in each academic program exclusively for local students, prioritizing girls from rural backgrounds. These seats were offered with the **most affordable fee structure**, ensuring access to **professional and technical programs** without financial strain.

Outcome:

By implementing this policy, University succeeded in creating a supportive environment for local girls, contributing to their personal and professional development while fostering an inclusive educational ecosystem for Women Higher Education.

2. Scholarships and Fee Subsidies:

Apart from Local Seat Reservations, JVVU offered **up to 90% scholarships** for deserving meritorious students/BPL/ Deprived Girl Child from economically weaker families. Parents were **counselled through career awareness programs** to understand the importance of higher education for their daughters' future and to encourage enrolments.

Existing Students of University are provided with **50 % scholarship** in their Academic Fee to continue their higher education from the University,

Outcome:

- **Over 85% of enrolled girls** benefited from scholarships, reducing the financial burden on families.
- **Dropout rates decreased**, with many girls opting to complete their degrees and pursue careers.
- Progressive Enrollment of Passout students for Higher Education.

This strategic pairing of seat reservation and Scholarships and Fee Subsidies for local girl child not only guarantees affordability but also enhances accessibility, facilitating the enrolment of a greater number of girls in professional and technical programs. The intent is to create an inclusive educational landscape where financial constraints do not impede the aspirations of talented and deserving students. By fostering equal educational opportunities through these measures, JVVU aims to empower local girls from rural backgrounds and contribute to the broader mission of societal development through education.

Over the span of the last three (3) years, Jayoti Vidyapeeth Women's University (JVVU) has demonstrated a commendable commitment to enhancing educational opportunities for local and rural girls. Notably, the university has achieved a noteworthy surge in the allocation of local seats across various professional programs. Moreover, scholarships for local girls have been substantially elevated, reaching an impressive 80-90%, and the provision of free education has been extended to 10-20% for rural girls. These strategic enhancements underscore JVVU's proactive measures to mitigate financial constraints and make high-quality education more accessible to girls hailing from local and rural communities.

3. Employment Opportunities:

- **10% of employment positions** within the university are reserved for eligible rural candidates, especially women.
- Job roles include administrative positions, teaching assistance, and support staff.
- This initiative promotes **local hiring** and ensures that students have employment prospects within their community after completing their education.

Outcomes :

Employment Opportunities

1. **Increased Representation of Rural Candidates:** The 10% reservation for eligible rural candidates empowered underrepresented communities, contributing to social and economic upliftment.
2. **Empowerment of Women:** Prioritizing women in rural hiring will lead to increased gender equity and support women's financial independence. This measure aligns with the university's commitment to inclusivity and gender justice.
3. **Strengthened Community Engagement:** Local hiring fosters a strong connection between the university and its surrounding rural areas, encouraging community development. This relationship helps the university better understand and address the needs of local populations
4. **Economic Development in Rural Areas:** By creating stable jobs within the community, the initiative helps drive economic growth in rural regions. It reduces urban migration by providing sustainable employment opportunities locally.
5. **Promotion of Inclusive Education Ecosystems:** This initiative of the university ensures that rural perspectives are included within the university workforce, enriching the educational environment for all.
It creates role models for rural students, motivating them to pursue higher education. This initiative will contribute significantly to the university's mission of equitable education, social justice, and community development.

4. Education Awareness and Career Counseling Programs:

The university conducted **regular education awareness campaigns and career counselling drives, Door to Door Campaigns** in nearby villages, providing students and parents with guidance on educational opportunities, career paths, and the benefits of enrolling in professional programmes at JVWU.

JVWU conducts educational awareness programs such as Beti Padhao Beti Bachao, Ucha Shiksha Yojna, Nari Shiksha Yojna etc. in nearby villages to inform families about the benefits of higher education for girls.

Outcome:

- Every Year, More than 500 Parents, and 20 + Schools of Secondary and Senior Secondary Schools of Rural Area participated in the career counselling sessions, leading to a noticeable shift in mindset toward higher education for girls.
- Many families, previously unaware of career opportunities for girls, began prioritizing education over early marriage.

4. Earn-While-Learn and Placement Support

To incentivize enrollment and provide financial independence, JVWU launched earn-while-learn programs where students could work part-time on campus along with their studies. This programme is specially launched for PG and Research students. Additionally, the university ensured 100% placement support for graduates who choose to study on Earn-While-Learn Concept.

Outcome:

- Many girls were able to support their education costs through part-time jobs, easing the financial pressure on their families.
- The university's placement cell helped graduates secure jobs, improving economic mobility and inspiring other girls to pursue higher education.

5. Assistance with Government Scholarships, Loans, and Credit Facilities

JVWU actively assisted families in applying for government scholarships, education loans, and university credit facilities. This ensured that financial obstacles did not deter girls from completing their education.

Outcome:

- Over 60 % students successfully obtained government scholarships and loans, enabling them to pursue professional courses like engineering, healthcare, and education
- Increased access to credit facilities promoted continuity in education, as families no longer had to withdraw their daughters from school due to financial constraints.

6. Teaching Learning Support to School Children

The Faculty of Education & Methodology at the University is equipped with advanced laboratories and a skilled teaching team and students including M.Ed., B.Ed., BA-B.Ed., and B.Sc.-B.Ed., Programmes recognize the educational challenges in rural areas by conducting Household Surveys. This initiative is structured with several key strategies to ensure its effectiveness and sustainability:

1. Practical Exposure Centers

- **School Partnerships:** Five to ten schools in nearby villages will be designated as Practical Exposure Centers. Every Saturday, senior university students, under the guidance of faculty, will conduct additional classes for these schools.
- **Focus Areas:** Subjects covered will include those relevant to employability, skill development, English communication, and allied sciences, tailored to the needs of rural students
- **Benefits:** This provides practical exposure to university students while enriching rural students' learning experience, bridging educational gaps.

2. Teacher Training and ICT Integration

- **ICT in Education:** To upgrade teaching quality, the initiative includes introducing school teachers to modern teaching tools, including ICT.
- **Professional Development:** Workshops led by university faculty will enhance local teachers' skills, focusing on updated teaching methodologies, classroom management, and content delivery.

5. Establishing Training and Development Centers

- **Teacher Training Centers:** These centers will provide continual professional development for rural teachers, upgrading their skills and ensuring quality education for students.

Outcomes:

- **Improved Student Performance:** Increased engagement and support in key subjects will result in better academic outcomes among rural students.
- **Teacher Empowerment:** Local teachers will benefit from ICT tools and modern teaching techniques, fostering a higher standard of teaching in rural schools.
- **Community Awareness:** Awareness initiatives will lead to increased enrollment in higher education, especially among girls, and reduce social issues.

6. Education Mentorship :

This Education & Methodology initiative offers a comprehensive model for University-community engagement. It highlights how student involvement, awareness campaigns, and individualized mentorship can create a lasting educational impact. The long-term goal is not only to improve literacy rates but also to establish a culture that values education, ensures girl child enrollment, and utilizes resources effectively for sustainable development.

The primary goals of this Program are to:

1. Encourage villagers to pursue higher education for their children.
2. Raise awareness about the importance and necessity of education for girl children.
3. Suggest ways to reduce dropout rates by introducing various University Education Schemes targeted at supporting students and families.
4. Provide Skills to Teachers and Children of Schools of using ICT Tools and update them with Latest technologies
5. Provide Financial Support for Higher Education

Methodology:

1. Survey:

Objective: Collect data on educational status, family size, and economic conditions in the rural communities

Execution: **Conduction of household surveys within the community, led by students with guidance from faculty mentors. The surveys will collect data in prescribed format. :**

1. Family structure, income levels, and number of school-aged children.
2. Education status of each family member, particularly school-age children.
3. Reasons for school dropout, especially among girl children.

2. Data Analysis:

Objective: Analyse the survey data to identify key patterns and root causes of dropout and low literacy rates.

Execution: With faculty guidance, students categorize the data by factors like age, gender, education status, and dropout reasons for analysis and further course of action.

1. Dropout among different age groups and genders.
2. Socio-economic factors impacting education (e.g., income, lack of resources).
3. Gaps in awareness about government schemes or scholarships.

3. Solution Development:

Objective: Develop tailored solutions provided to improve literacy rates and reduce dropout rates, particularly among girls.

Method: **Using insights from the data analysis, students and mentors recommend existing University schemes and government policies, focusing on:**

1. Scholarship programs for girls and children from low-income families.
2. Vocational training and adult education opportunities for the community.
3. Outreach programs on the benefits of continued education and skill development.

4. Campaigning:

Objective: **University** Organize frequent awareness campaigns to educate villagers about educational opportunities and government schemes.

Method: University students and faculty conduct regular campaigns in the adopted village, addressing:

1. Importance of higher education and its long-term benefits for families.
2. Government schemes like scholarships, midday meals, and free textbooks.
3. Awareness sessions on girl child education and rights.

The University's Teaching and Learning Support program for rural schools combines practical student training, community service, and educational development, creating a sustainable impact on the educational and social landscape of rural communities.

Outcomes :

- More than 250 rural girls enrolled in the first year in last five years under this policy, representing a significant increase in Enrollment from nearby villages
- Families felt more comfortable as their daughters could pursue higher education without leaving their community.
- Girl child Enrollment in local schools increased by 40% in two years.
- Community members began actively participating in education-related discussions, reflecting a positive shift in mindset toward gender equality.
- Children showed significant improvement in academic performance, with many reporting higher grades in school assessments.
- Increased school attendance was observed due to the engaging activities and support.
- Parents and teachers reported enhanced confidence and social skills in children, with many taking part in inter-school competitions.

Impact and Results:

1. Increased Enrollment and Reduced Dropout Rates:

- There was a significant **increase in enrollment** of rural girls in various professional programs
- **Dropout rates decreased** significantly, as students found greater motivation and financial support to continue their studies.

2. Community Awareness and Empowerment:

- Parents gained **awareness about scholarships, career paths, and government schemes**, fostering a positive attitude toward girls' education.
- Many girls became **role models** for their communities, inspiring others to pursue education.

3. Improved Economic Opportunities for Girls:

- With **placement support and part-time jobs**, several graduates secured well-paying jobs, contributing to **family income** and **breaking gender norms**.
- The **economic empowerment** of these girls led to increased participation in community decision-making.

4. Shift in Social Norms:

- Families began **delaying marriages** to allow their daughters to complete higher education.
- The community's attitude toward **women's professional roles** improved, with more parents supporting their daughters' career aspirations

Challenges

1. **Economic hardship:** Many families in the university's surrounding rural areas struggled to bear the cost of higher education.
2. **Social barriers:** Early marriage and cultural norms discouraged many girls from continuing their education.
3. **Lack of awareness:** Parents were unaware of government scholarships, loans, and the long-term benefits of higher education.
4. **Fear of migration:** Families were hesitant to send their daughters far from home for education.

Evidence :

1. Educational Initiatives to promote Women Higher Education
2. Scholarship and Subsidy provided to the local students
3. Seat Reservation policy documents for local students
4. Earn While Learn Opportunities for Students
5. Progressive Enrollment for Higher Education from UG to PG and PG to PhD

Positive Outcomes:

The positive outcomes of these initiatives are multifaceted, significantly contributing to various realms of education, empowerment, and community development as a whole. Through these efforts, JVWU is fostering a conducive environment where talented and deserving individuals, irrespective of their financial backgrounds, can access and excel in higher education. The university's proactive stance not only empowers individual students but also acts as a catalyst for positive social change, aligning with its overarching mission of community development through education.

1. Promoting Gender Equity in Education:

- JVWU actively promotes gender equity by prioritizing local girl aspirants in its educational initiatives.
- The targeted focus addresses and overcomes the additional challenges faced by women from rural areas.
- This strategic approach contributes to fostering a more inclusive and equitable educational environment.
- JVWU's initiatives demonstrate a commitment to breaking down barriers and creating opportunities for women in rural communities.

2. Mitigating Financial Constraints:

- The synergy of scholarships and reserved seats at JVWU alleviates financial barriers hindering higher education pursuits.
- Scholarships extend beyond tuition fee encompassing living expenses and other costs, ensuring comprehensive financial support.
- This dual strategy fosters an environment where economic constraints do not hinder deserving students.
- JVWU's commitment to financial accessibility exemplifies its dedication to creating equal educational opportunities for all.

3. Creating a Diverse and Inclusive Campus Environment:

- JVWU goes beyond enrolment figures, displaying a commitment to diversity that enriches the campus environment.
- The university's dedication results in a vibrant and inclusive atmosphere where students from varied backgrounds converge.
- The diverse student body fosters a dynamic learning environment, promoting mutual understanding and appreciation.
- JVWU's emphasis on inclusivity aligns with its broader goal of creating a well-rounded educational experience for all.

4. Significant Increase in Literacy Rates:

- The emphasis on education for local girls has resulted in a notable increase in literacy rates within local communities.
- Successfully completing education becomes a catalyst for broader social and economic transformation.

5. Impact on Individuals and the Broader Community:

- Scholarship and reservation policies have a profound impact not only on individuals but also on the broader community.
- This holistic approach contributes to social equity, community development and the realization of JVWU's overarching objectives.

6. Empowering Local Girls through Higher Education:

- Higher education at JVWU empowers local girls by imparting knowledge, skills and confidence.
- It serves as a catalyst for informed decision-making allowing them to break free from limited opportunities.
- The transformative impact extends beyond academics, influencing personal and professional aspects of their lives.
- The university's commitment to education contributes to the empowerment of local girls and the broader community.
- Through this holistic approach, JVWU plays a pivotal role in shaping a more empowered and informed generation.

7. Professional Education and Economic Well-being:

- Professional education unlocks avenues for improved job prospects and higher income.
- Local girls armed with these skills, actively contribute to enhancing their economic well-being.
- The acquired knowledge and skills empower them to make informed decisions about their lives and careers.
- This positive transformation not only uplifts individual economic standing but also positively impacts their families.
- Jayoti Vidyapeeth Women's University plays a pivotal role in facilitating this empowerment through its commitment to professional education.

Success Story of the Extension Activities:

Over the past 16 years, JVWU has successfully fulfilled its mission of women's empowerment, with thousands of graduates contributing to the nation in diverse roles. The effective implementation of scholarship and reservation policies in higher education has played a pivotal role in achieving positive outcomes, promoting social equity and driving community development. JVWU's holistic approach to women's empowerment through education serves as a beacon of success, transforming individual lives and positively impacting the broader community. The university's commitment to inclusivity, accessibility, and empowerment positions it as an inspiring model for institutions aiming to make a lasting impact through education and empowerment.

Through its **Local Academic Seats Policy, scholarship programs, counselling drives, and career support initiatives**, JVWU successfully reduced the dropout rate among rural girls. The university's commitment to **empowering women through education** resulted in **higher enrollment, economic independence, and social change** in the surrounding rural areas. This model demonstrates that **inclusive education policies, financial aid, and community engagement** can **break barriers** and **foster long-term social impact**, ensuring that girls have equal access to education and opportunities.
