(57) Abstract :

Herbal products are used in recent time for safe use. The majority of the components are chemical ingredients which are often not useful for the. The aim of this investigation is to prepare herbal shampoo formulations to treat hair problems like hair damage, hair fall, hair thinning and dandruff. The herbal shampoo is specially prepared from extracts of amla, reetha, shikakai, senna, bhringaraj, brahmi, aloe vera, lemon juice. Cosmetic products may contain some harmful chemicals which can cause some serious problems in hair. Herbal formulation, on the other hand, are easy to use and have no side effects. In this patent herbal shampoo is prepared by the use of plant extraction method and prepared shampoo could be commercialized as described for 'treatment of hair scalp and hair problems. The formulated herbal shampoo was evaluated for its physicochemical properties with the marketed synthetic and herbal shampoos.
