University has prepared the draft to implement NEP 2020 in the coming session 2023-24 incorporating flexible curriculum and multiple entry and exit in Undergraduate programs. Further flair of research is added to all the Post Graduate and professional programs. In second year; all the Post graduate students will have to take up societal projects to do research and find solutions to society's most pressing issues and challenges. Apart from this, since its inception University has made it compulsory for each and every student to clear University Compulsory Courses (UCC) that includes Community development activities, Environmental Science and Disaster management etc. These courses integrate the curriculum knowledge with real life experience during students' academic journey.</p>					

**17.Academic bank of credits (ABC):**

Jayoti Vidyapeeth Women's University, Jaipur is following Academic Bank of Credits on the lines of the National Academic Depository (NAD). Under ABC the students' academic data are held and academic awards are stored digitally to enable the students to register or commence credit transfer, the final outcomes of credit redemption and issuance of certificates. The compilations of award records are administered by the University via NAD Platform.

Through ABC University permits its students to avail the benefit of multiple entry and exit during the programme.

Faculty members are also encouraged to design teaching and learning content, assignments, assessments etc. They are also encouraged to design their own curricular and pedagogical approaches.

**18.Skill development:**

Jayoti Vidyapeeth Women's University, Jaipur has Directorate of Entrepreneurship & Skill Development (DESD) to impart skill development among its students and other stakeholders. University has taken up the challenge to demonstrate models that focus on skilling people with varying educational qualifications (including illiterates-they are not without skills, but their skills have been rendered redundant in the new economic context).

University aims at increasing the employability of its students by imparting knowledge and skills, through cutting edge teaching and learning methods as well as practical work experience through internships, On the job training, Dissertation and community projects. In addition, through its compulsory program Community development Activity (CAD), University focuses on inculcating students with values of civic responsibility and teaching them to work together effectively in complex environments to find practical solutions to some of most pressing social issues.

Aligning with National Skills Qualifications Framework (NSQF); University is planning to implement vocational education courses and integrate it with mainstream education by mandatory selection of at least one skill based course during whole UG/ PG academic journey of the student. University is planning to offer skill courses in Offline as well as online mode.

Through celebration of festivals of National importance, participation in National Service Scheme, Red Ribbon Club and other units of the University; University is inculcating positivity among

the students that include the development of humanistic, ethical, Constitutional and universal human values of trust, righteous conduct, peace, love, nonviolence, scientific temper, citizenship values and also life skills etc.

Through its Startup Cell; University provides an opportunity for its students to Earn while Learn and work upon its startups after their academic hours. This initiative will bring about a change for the better in their lives by making them skilled and employable. Our students and staff have access to a well-equipped Innovation Centre, Incubation and research facilities to refine their research skills. For students, staff and nearby community Members; University has launched various skill development Diploma and Certificate courses also to enhance their hidden skills. Apart from this, University has also included Self Defense, Yoga & Meditation, Help Aid, Disaster Managment, as a part of compulsory curriculum that helps to enhance the skill of the students.

#### **19.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)**

Without language one cannot think of the existence of the world itself. Study of Indian knowledge system in the present times is extremely vital. It is the need of the hour as the exploration of Indian Knowledge Systems (IKS) has begun. We have started to explore the ancient indigenous knowledge of various scientific fields which are naturally in indigenous languages. So, to support such exploration and research activities knowledge of Indian Languages, its literature, structure and range of knowledge is a prerequisite. Hence, the study of Indian Languages contributes to the greater cause of unearthing the ancient Indian knowledge and converging its outcomes with the modern requirements leading to prosperity of the society and nation at large. Study of indigenous languages not only leads to the prosperity of the nation but also makes the individual person culturally rooted and betters his/her expressiveness. Thus, helping in preserving the indigenous culture and traditions and also developing individual personalities.

Universirty is fully dedicated towards the research of India's glorious past that connects the perception through time and encourages us to take a long view of such connections. Here, the students and teachers try to understand the logic behind past inventions, researches, incidents, logics, ideologies etc. Students and teachers understand about past practices through face to face interaction with the people during field visits, industrial trainings, and interview of people when they visit University and

other incidents of face to face interactions. During these interactions University students and teachers get the views of people on various issues like their traditions, beliefs, values, traditional remedies for diseases, their dressing style and various other things of their past years.

Apart from this, the study of ancient literature and inventions are ineffaceable and inexpressible part of the history, culture and literature of present times. Ancient literature and inventions are the store-house of eternal and perpetual knowledge in addition to being an abundant source of crucial information about the social system including political, legal, cultural and economic environment of ancient India.

University emphasized on giving due recognition to past research & researchers in all the research articles and scholarly articles of research work. For successful implementation of this Ideology University has well defined Research Policy that gives due recognition to the originators while research work by acknowledgement to the originators, Correlation of research work with past research and using traditional symbols in literature.

It is a mandatory part of University's teaching methodology to correlate the content teaching in the class with the ancient Indian literature. While writing answers during exams, students also have to mention these references with each answer. Faculty members at JYWU are emphasized to use bilingual mode for lecture deliveries in Online as well as Offline modes. Some courses like B.Ed, M.Ed, BA, MA etc, are also offered in Hindi & English. At Ayurvedic Sciences, knowledge of Sanskrit is compulsory as many ancient ayurvedic texts are written in Sanskrit language. University has arranged extra classes for BAMS as well as other students to learn the Sanskrit.

## **20.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):**

Outcome-Based Education (OBE) is a student-centric teaching and learning methodology in which the course delivery, assessment are planned to achieve stated objectives and outcomes. It focuses on measuring student performance i.e. outcomes at different levels.

Jayoti Vidyapeeth Women's University, Jaipur is focusing in Outcome Based Education (OBE). All the parts and aspects of education are focused on the outcomes of the course. OBE is an educational approach and we focus and organize the entire academic programs (curriculum) and instructional efforts around clearly defined 'outcomes' we want all students to demonstrate when the complete the

program. It is a student-centered instruction model that focuses on measuring student performances through outcomes. Outcomes are usually expressed in terms of a mixture of knowledge, skills, abilities, attitudes and understanding that a student will attain as a result of her successful engagement in a particular program.

At Jayoti Vidyapeeth Women's University we measure the progress of students in three parameters of OBE model: The students are provided with the Program Outcomes, Course Outcomes and Program Specific Outcomes at the initiation of the Program so that they can take up the courses with a certain goal of developing skills or gaining knowledge and they have to complete the goal by end of the course. The faculty members guide the students based on the target outcomes.

- Program Outcomes (PO)
- Program Specific Outcomes (PSO)
- Course Outcomes (CO)

JVWU is focusing on Bloom's Taxonomy for categorizing educational goals; which are widely used in teaching, learning and assessment, to make students go through various levels in cognitive domain of learning.

According to revised Bloom's taxonomy, the levels in cognitive domain are as follows:

1. Remembering
2. Understanding
3. Applying
4. Analyzing
5. Evaluating
6. Creating

#### **21.Distance education/online education:**

Jayoti Vidyapeeth Women's University, Jaipur has incorporated blended learning environment to its students through UGC's SWAYAM and MOOC portals to provide flexibility to students. During the time of pandemic University's efforts towards providing online education to its students has been successful. University has its own portal namely Digital version 2.0 for providing lectures notes, e videos,

library references and other study material to its students.

Aligning with National Skills Qualifications Framework (NSQF); University is planning to implement vocational education courses and integrate it with mainstream education by mandatory selection of at least one skill based course during whole UG/ PG academic journey of the student. University is planning to offer skill courses in Offline as well as online mode.

Online teaching and learning make students more responsible for their own education. ICT helps students get ready by letting them explore, assess, share, and present information in a fairly organised way. Modern learners are good with technology, so using ICT in their everyday learning makes them feel and look good. At JVWU, students are encouraged to learn by using electronic media like PPT, video lectures, lecture notes etc. Using ICT to teach and learn is part of the education system today. ICT-based education helps, improves, and uses information delivery in the best way possible. The University offers online classes and records lectures with YouTube and other software. The classrooms are equipped with projectors, Wi-Fi and computer system which makes it easy for teachers to upload their lessons and materials and encourages them to do so. This helps online classes and learning go smoothly. Technology also gives us great opportunities to make learning easier for everyone, no matter what their needs are. Students can learn both theoretical and practical skills with the help of technology. Faculty members get regular training and development on how to make e-content. For each module, the faculty makes e-content and puts lecture videos, PPTs, and other learning materials which are duly uploaded on University's portal. During live classes, counseling sessions, and mentoring, the teachers talk to the students through various online platforms like google meet etc. Students can sign in to live online classes using laptop/ desktops.. University has applied for NAAC accreditation to upgrade NAAC grading to start Distance and online Education.

## Part B

### CURRICULAR ASPECTS

## 1.1 - Curriculum Design and Development

1.1.1 - Curricula developed and implemented have relevance to the local, national, regional and global developmental needs which is reflected in Programme outcomes (POs), Programme Specific Outcomes(PSOs) and Course Outcomes(COs) of the Programmes offered by the University

At JVWU, designing a curriculum is an important and complex task, which involves an analysis of the existing curriculum and the need for making it relevant to the emerging need of Local, National, Regional, Global Development, so that the University's Mission of women empowerment and community development may be achieved. The COs of all courses from first year to final year of the program are mapped with POs considering the performance index as per guidelines of the concerned regulatory body. The Gaps in the curriculum are identified and activities like seminar, workshop, training programs, hand on training, expert lectures are planned. Co-curricular and extra-curricular activities in line with the POs are also planned. Emphasis given on Teaching methods, Techniques and tools used. Quality of delivery of content, Continuous Assessment, Remedial measures for slow learners, Use of ICT tools and Project Based Learning etc. For analyzing the need for modifications in curricula, the feedback from the alumni, parents, industry experts, local community members and authorities are taken into consideration at the time of departmental thought process in which Unit Heads, Coordinators, faculty members and class representatives participate. The future needs of the industry and world, in light of the University's vision and mission, are also considered.

### 2.2 - Catering to Student Diversity

2.2.1 - The institution assesses the learning levels of the students and organises special Programmes for advanced learners and slow learners

University follows a streamlined process for continuous monitoring, evaluation and progress of the student. On the basis of the Communication Test/Psychometric Test after 1st month of the admission, teacher analyzes the students in three categories (slow learner, average learner and advanced learners). By differentiating these three elements, teachers offer different approaches to what students learn, how they learn it, and how they demonstrate what they've learned.

#### Objectives of Mentorship

- To make students stress free & happy
- To hear and solve the academic and personal problems (to a limited extent) of students
- To support slow learners
- To direct average learners towards advanced learning.
- To refine learning opportunities so they're effective for each student
- To monitor the match between learner and learning and make adjustments as required
- To make advanced learners uncover deeper layers of learning
- To help students in their overall development

#### Identification of Learner status (New Students)

New students will be categorized in - slow, average and advanced learner based on a test after their 30 days of enrolment by conducting Communication Test/Psychometric Test after 1st month of the admission.

The old students are categorized in - slow, average and advanced learner based on their percentage in the latest trimester/ semester/ Year (on half yearly performance). Efforts are done by the mentor for up gradation of learning levels of the students.

### 2.3 - Teaching- Learning Process

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences

The teaching-learning process of the University is designed to cater to the needs of students coming from different backgrounds. Student-centric methods like experiential learning, participative learning, and problem-solving methodologies can significantly enhance the learning experiences of the students. Teacher uses these approaches to prioritize active engagement, critical thinking, and the application of knowledge, making learning more meaningful and effective.

Experiential Learning encourages students to take ownership of their learning, enhances retention, and helps bridge the gap between theory and practice. Teaching focuses on experiential learning to improve student's problem-solving skills, teamwork, and adaptability.

Participative Learning is a form of reflective teaching approach. Group discussion, Debates and seminars, webinars, quizzes, skill based various competitions educational tours are the other common participatory learning activities at JWU. Students are also actively participating in all extracurricular activities such as cultural fest, Festival Celebration, Dance, Music, Art & Craft, Sports activities, Leadership activities, participation in regular meetings, Feedback Mechanism, Community Development Activities, Annual University programs, etc.

Problem Solving Skills are among the most valued skills in the workforce today. University provides a platform to students where they can inculcate these skills and exposed to real world situations, problem solving methodologies used for this purpose are Mind mapping, Brain Storming, Case Studies, Patient Counseling, Drafting, and pleading and Fashion Illustrations etc.

2.3.2 - Teachers use ICT enabled tools including online resources for effective teaching and learning processes during the year

Using Information and Communication Technology (ICT) enabled tools and online resources has become essential for effective teaching and learning processes. In Jayoti Vidyapeeth Women's University, Jaipur most of the classrooms and lecture halls, laboratories are equipped with ICT tools for effective teaching and learning.

Faculty members have adopted ICT enabled teaching methods with audio-

visual aids using Power Point presentation, Videos, animations, Google docs, Google drive, ERP, University's you tube channels and modes for dissemination of the course materials. Video lectures and e content prepared by the faculty members are also used for teaching and learning and have been uploaded on university official website and their individual learning portal 'my academic profile.'

By integrating ICT tools and online resources our faculty members are able to provide more interactive, and personalized learning experiences to their students, fostering effective learning and skill development throughout the academic year.

Following ICT enabled tools are available for effective teaching and learning processes:

- Projectors
- Laptops & Computers
- Smart Boards & LCD enabled classrooms.
- MOOCs, online lectures,
- Video Conferencing through various applications
- Online teaching platforms like Google meet, Zoom, Microsoft Teams, Cisco Webex

## **2.6 - Student Performance and Learning Outcomes**

2.6.1 - The institution has stated learning outcomes (generic and programme specific)/graduate attributes which are integrated into the assessment process and widely publicized through the website and other documents

JVWU has stated all its learning outcomes/graduate attributes through its website. University's website has on its webpage, the programmes offered, programme objectives, programme specific objectives, the course structure, and the syllabus. The syllabus prominently displays the course objectives and course outcomes. The syllabus also provides information about scheme of instruction and evaluation.

JVWU has devised and revised all its educational programmes to include such attributes so that when a student graduates they are equipped with discipline, knowledge, critical thinking, problem-

solving ability, communication skills and digital capability. The syllabi of programmes on offer are the testimony to whatever is stated. The revision of the syllabus, and the incorporation of new subjects in line with the industry and community requirements suggest how MANUU has prioritized discipline knowledge as first and foremost in learning outcomes and graduate attributes.

Besides the course outcomes, the syllabus structure of every course carries a 'course objective' which sums up what is expected in terms of learning outcomes from the student at the end, in that course. Whereas, the programme specific outcomes of every programme in general manifest the learning outcomes of each programme, the course objective carries learning outcomes related to any given course of a given programme.

2.6.2 - Attainment of Programme outcomes, Programme specific outcomes and course outcomes are evaluated by the institution during the year

The university offers various programs under Engineering, Medical, Paramedical, Law, Management, Commerce, Education, Biotechnology, Science, Humanities & Arts disciplines. and in order to understand each and every program, Board of Studies & Academic Council designed and approved Program outcomes, Specific Outcome & Courts Outcomes which has been defined on the LMS Digital version 2.0 (jvwu.in/student/login.php) portal by the university. It also describes the carrier and professional accomplishment after graduation, post-graduation, and doctoral courses.

The curriculum for UG courses/ PG programs/Research Programmes is designed and approved by the Board of Studies, the program/course outcomes along with detailed syllabi offered by each Faculty/Department is clearly stated on website and University learning platform Digital Version 2.0 to provide easy access to the students.

Program outcomes defines what student able to do by the time of graduation, post-graduation, and their doctoral courses. The main focus is on students' knowledge, skills, and behavior as they progress through the program.

Each course of program specified its importance for that program through course outcome. Course outcomes are clear and concise

statements that explain what students are expected to learn by the end of the course. Each course is peer reviewed in every semester by the subject experts assigned to the course.

The Program outcomes, Program specific outcomes and course outcomes are evaluated by the expert committee and the same are communicated to the students in the formal way of the discussion in the classroom and departmental notice board.

## 3.3 - Innovation Ecosystem

3.3.1 - Institution has created an eco-system for innovations including Incubation centre and other initiatives for creation and transfer of knowledge

The University has taken a remarkable step in fostering a thriving eco-system for innovations by establishing an Incubation Centre, Innovation Centre, Startup cells and other initiatives aimed at facilitating the creation and transfer of knowledge. This ecosystem is designed to support and nurture the entrepreneurial spirit of students, researchers, and the wider community, enabling them to transform their innovative ideas into successful venture at the core of this ecosystem is the provision of essential infrastructure, such as office space equipped with state-of-the-art IT infrastructure. This ensures that innovators have the necessary tools to work efficiently and effectively. Additionally, a dedicated board/meeting room facilitates collaboration and networking among stakeholders. Digital resources are readily available, empowering innovators with cutting-edge information and research materials to fuel their

projects further. The provision of laboratories allows for hands-on experimentation and prototyping, accelerating the development of groundbreaking technologies. Expert talks and technology demonstrations are organized regularly, bringing industry leaders and experts to share their insights and experiences, inspiring and guiding the innovators towards innovative solutions.

Overall, this comprehensive ecosystem not only encourages innovation but also fosters a culture of collaboration, learning, and entrepreneurship. By providing the necessary infrastructure, resources, support, and networking opportunities, the University's innovation ecosystem plays a pivotal role in driving societal and economic progress through groundbreaking ideas and inventions.

7.1.11 - Institution celebrates / organizes national and international commemorative days, events and festivals

At Jayoti Vidyapeeth Women's University, every event or festival is celebrated with great zeal and enthusiasm. We help students to relate to the culture and heritage of our country and connect with their roots and make them aware of the national pride and rich cultural heritage.

The celebrations and observance of national and international commemorative days, events, and festivals are essential for fostering a sense of community, promoting cultural diversity, and creating a positive and engaging environment. These celebrations provide opportunities for students to come together, share experiences, and learn about different cultures and traditions. By Identifying a diverse range of national and international commemorative days, events, and festivals that align with the

university's values and mission. including International Women's Day, International Day of Peace, World Cultural Diversity Day, International Day of Education, and many others, University creates a vibrant and enriching atmosphere that contributes to the overall growth and development of students . They also reinforce the values of cultural understanding, social responsibility, and global awareness among their students and staff.

For organizing and celebrating such events, an academic calendar is prepared before commencement of each academic year. The students of Jayoti Sangh included cultural committee, sports committee, disciplinary committee, Event Planning Committee etc. along with NSS, Red Ribbon Club, Guide etc. organize and celebrate all activities on campus/off campus. University ensures 100% participation of all the students of all streams in the events by contributing their creative ideas, thoughts, and skills.

## Part B

### CURRICULAR ASPECTS

#### 1.1 - Curriculum Design and Development

1.1.1 - Curricula developed and implemented have relevance to the local, national, regional and global developmental needs which is reflected in Programme outcomes (POs), Programme Specific Outcomes(PSOs) and Course Outcomes(COs) of the Programmes offered by the University

At JVWU, designing a curriculum is an important and complex task, which involves an analysis of the existing curriculum and the need for making it relevant to the emerging need of Local, National, Regional, Global Development, so that the University's Mission of women empowerment and community development may be achieved. The COs of all courses from first year to final year of the program are mapped with POs considering the performance index as per guidelines of the concerned regulatory body. The Gaps in the curriculum are identified and activities like seminar, workshop, training programs, hand on training, expert lectures are planned. Co-curricular and extra-curricular activities in line with the POs are also planned. Emphasis given on Teaching methods, Techniques and tools used. Quality of delivery of content, Continuous Assessment, Remedial measures for slow learners, Use of ICT tools and Project Based Learning etc. For analyzing the need for modifications in curricula, the feedback from the alumni, parents, industry experts, local community members and authorities are taken into consideration at the time of departmental thought process in which Unit Heads, Coordinators, faculty members and class representatives participate. The future needs of the industry and world, in light of the University's vision and mission, are also considered.

<b>2.2 - Catering to Student Diversity</b>	
2.2.1 - The institution assesses the learning levels of the students and organises special Programmes for advanced learners and slow learners	
<p>University follows a streamlined process for continuous monitoring, evaluation and progress of the student. On the basis of the Communication Test/Psychometric Test after 1st month of the admission, teacher analyzes the students in three categories (slow learner, average learner and advanced learners). By differentiating these three elements, teachers offer different approaches to what students learn, how they learn it, and how they demonstrate what they've learned.</p>	

## Objectives of Mentorship

- To make students stress free & happy
- To hear and solve the academic and personal problems (to a limited extent) of students
- To support slow learners
- To direct average learners towards advanced learning.
- To refine learning opportunities so they're effective for each student
- To monitor the match between learner and learning and make adjustments as required
- To make advanced learners uncover deeper layers of learning
- To help students in their overall development

## Identification of Learner status (New Students)

New students will be categorized in - slow, average and advanced learner based on a test after their 30 days of enrolment by conducting Communication Test/Psychometric Test after 1st month of the admission.

The old students are categorized in - slow, average and advanced learner based on their percentage in the latest trimester/ semester/ Year (on half yearly performance). Efforts are done by the mentor for up gradation of learning levels of the students.

## 2.3 - Teaching- Learning Process

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem-

solving methodologies are used for enhancing learning experiences

The teaching-learning process of the University is designed to cater to the needs of students coming from different backgrounds. Student-centric methods like experiential learning, participative learning, and problem-solving methodologies can significantly enhance the learning experiences of the students. Teacher uses these approaches to prioritize active engagement, critical thinking, and the application of knowledge, making learning more meaningful and effective.

Experiential Learning encourages students to take ownership of their learning, enhances retention, and helps bridge the gap between theory and practice. Teaching focuses on experiential learning to improve student's problem-solving skills, teamwork, and adaptability.

Participative Learning is a form of reflective teaching approach. Group discussion, Debates and seminars, webinars, quizzes, skill based various competitions educational tours are the other common participatory learning activities at JWU. Students are also actively participating in all extracurricular activities such as cultural fest, Festival Celebration, Dance, Music, Art & Craft, Sports activities, Leadership activities, participation in regular meetings, Feedback Mechanism, Community Development Activities, Annual University programs, etc.

Problem Solving Skills are among the most valued skills in the workforce today. University provides a platform to students where they can inculcate these skills and exposed to real world situations, problem solving methodologies used for this purpose are Mind mapping, Brain Storming, Case Studies, Patient Counseling, Drafting, and pleading and Fashion Illustrations etc.

2.3.2 - Teachers use ICT enabled tools including online resources for effective teaching and learning processes during the year

Using Information and Communication Technology (ICT) enabled tools and online resources has become essential for effective teaching and learning processes. In Jayoti Vidyapeeth Women's University, Jaipur most of the classrooms and lecture halls, laboratories are equipped with ICT tools for effective teaching

and learning.

Faculty members have adopted ICT enabled teaching methods with audio-visual aids using Power Point presentation, Videos, animations, Google docs, Google drive, ERP, University's you tube channels and modes for dissemination of the course materials. Video lectures and e content prepared by the faculty members are also used for teaching and learning and have been uploaded on university official website and their individual learning portal 'my academic profile.'

By integrating ICT tools and online resources our faculty members are able to provide more interactive, and personalized learning experiences to their students, fostering effective learning and skill development throughout the academic year.

Following ICT enabled tools are available for effective teaching and learning processes:

- Projectors
- Laptops & Computers
- Smart Boards & LCD enabled classrooms.
- MOOCs, online lectures,
- Video Conferencing through various applications
- Online teaching platforms like Google meet, Zoom, Microsoft Teams, Cisco Webex
- Media Centre, Audio Visual Rooms for preparing digital contents.
- Computer Lab

#### 2.6 - Student Performance and Learning Outcomes

2.6.1 - The institution has stated learning outcomes (generic and programme specific)/graduate attributes which are integrated into the assessment process and widely publicized through the website and other documents

JVWU has stated all its learning outcomes/graduate attributes through its website. University's website has on its webpage, the programmes offered, programme objectives, programme specific objectives, the course structure, and the syllabus. The syllabus prominently displays the course objectives and course outcomes. The syllabus also provides information about scheme of instruction and evaluation.

JVWU has devised and revised all its educational programmes to include such attributes so that when a student graduates they are equipped with discipline, knowledge, critical thinking, problem-solving ability, communication skills and digital capability. The syllabi of programmes on offer are the testimony to whatever is stated. The revision of the syllabus, and the incorporation of new subjects in line with the industry and community requirements suggest how MANUU has prioritized discipline knowledge as first and foremost in learning outcomes and graduate attributes.

Besides the course outcomes, the syllabus structure of every course carries a 'course objective' which sums up what is expected in terms of learning outcomes from the student at the end, in that course. Whereas, the programme specific outcomes of every programme in general manifest the learning outcomes of each programme, the course objective carries learning outcomes related to any given course of a given programme.

File Description	Documents
Upload relevant supporting document	<a href="#">View File</a>

2.6.2 - Attainment of Programme outcomes, Programme specific outcomes and course outcomes are evaluated by the institution during the year

The university offers various programs under Engineering, Medical, Paramedical, Law, Management, Commerce, Education, Biotechnology, Science, Humanities & Arts disciplines. and in order to understand each and every program, Board of Studies & Academic Council designed and approved Program outcomes, Specific Outcome & Courts Outcomes which has been defined on the LMS Digital version 2.0 (jvwu.in/student/login.php) portal by the university. It also describes the carrier and professional accomplishment after graduation, post-graduation, and doctoral courses.

The curriculum for UG courses/ PG programs/Research Programmes is designed and approved by the Board of Studies, the program/course outcomes along with detailed syllabi offered by each Faculty/Department is clearly stated on website and University learning platform Digital Version 2.0 to provide easy access to the students.

Program outcomes defines what student able to do by the time of graduation, post-graduation, and their doctoral courses. The main focus is on students' knowledge, skills, and behavior as they

progress through the program.

Each course of program specified its importance for that program through course outcome. Course outcomes are clear and concise statements that explain what students are expected to learn by the end of the course. Each course is peer reviewed in every semester by the subject experts assigned to the course.

The Program outcomes, Program specific outcomes and course outcomes are evaluated by the expert committee and the same are communicated to the students in the formal way of the discussion in the classroom and departmental notice board.

### 3.3 - Innovation Ecosystem

3.3.1 - Institution has created an eco-system for innovations including Incubation centre and other initiatives for creation and transfer of knowledge

The University has taken a remarkable step in fostering a thriving eco-system for innovations by establishing an Incubation Centre, Innovation Centre, Startup cells and other initiatives aimed at facilitating the creation and transfer of knowledge. This ecosystem is designed to support and nurture the entrepreneurial spirit of students, researchers, and the wider community, enabling them to transform their innovative ideas into successful venture at the core of this ecosystem is the provision of essential infrastructure, such as office space equipped with state-of-the-art IT infrastructure. This ensures that innovators

have the necessary tools to work efficiently and effectively. Additionally, a dedicated board/meeting room facilitates collaboration and networking among stakeholders. Digital resources are readily available, empowering innovators with cutting-edge information and research materials to fuel their projects further. The provision of laboratories allows for hands-on experimentation and prototyping, accelerating the development of groundbreaking technologies. Expert talks and technology demonstrations are organized regularly, bringing industry leaders and experts to share their insights and experiences, inspiring and guiding the innovators towards innovative solutions.

Overall, this comprehensive ecosystem not only encourages innovation but also fosters a culture of collaboration, learning, and entrepreneurship. By providing the necessary infrastructure, resources, support, and networking opportunities, the University's innovation ecosystem plays a pivotal role in driving societal and economic progress through groundbreaking ideas and inventions.

#### 6.4.4 - Institution conducts internal and external financial audits regularly

Jayoti Vidyapeeth Women's University has established mechanisms for conducting internal and external audit in every financial year to ensure financial compliance and for maintaining transparency, accountability, and financial health in a university. These audits serve different purposes and provide various benefits:

The internal audit of the income and expenditure during the year is conducted by an Internal Audit Committee constituted by the University consisting of personnel from the accounts department and external members and Finance Committee. The internal audit committee carries out rigorous audit from time to time and checks against any irregularity; necessary precautionary steps are taken as per their suggestions. Statutory audit or external audit is conducted by a chartered accountant firm appointed as per approval of the Board of Management.

At the end of every financial year, annual financial statements are prepared and presented for audit. The auditors review the financial statements, documents, vouchers and bills. They check statutory payments -TDS, Professional Tax, PF, ESI remittance etc. The auditors also check Fees Receipts, disbursement of Scholarship received from Government and other agencies. Auditors also assess the efficiency of financial operations and suggest improvements that can lead to cost savings and resource optimization then audited statements are prepared in June-July duly signed by the Chief Finance Committee and Chartered Accountant.

## 7.2 - Best Practices

7.2.1 - Describe one best practice successfully implemented by the Institution as per NAAC format provided in the Manual

**Best Practices:** All round development of students through maximum student engagement in co-curricular and extra-curricular & Community Development activities

Year of inception :2008 and this practice continuing.

**Context:** In today's fast-paced world, education is not only about academic excellence, but also about the holistic development of a student. The role of educational institutions in fostering all-round development of students is crucial. Co-curricular and extra-curricular activities are considered to be important components of a student's education. These activities provide an opportunity

for students to explore their interests, enhance their skills, and develop a sense of responsibility towards their community.

#### Objectives:

1. To encourage maximum student engagement in co-curricular and extra-curricular activities, which helps students to develop their interests and skills beyond academic learning.
2. To provide a platform for students to showcase their talents, creativity, and leadership qualities.
3. To promote a sense of teamwork and collaboration among students through participation in group activities
4. To create opportunities for students to interact with industry professionals and experts in their fields of interest, which can help them gain valuable insights and guidance for their future careers.

**Evidence of Success:** Studies have shown that participating in co-curricular and extra-curricular activities can have a positive impact on student development, both academically and socially. Students who are engaged in these activities tend to have higher academic achievement, better attendance records, and improved behavior compared to those who are not involved.

### 7.3 - Institutional Distinctiveness

7.3.1 - Highlight the performance of the institution in an area distinct to its priority and thrust (within a maximum of 200 words)

Jayoti Vidyapeeth Women's university is dedicated to equipping its students with the knowledge, skills, and values necessary to thrive in an ever-changing world.
